

Take the High Road Program

Call for a Ride and Send the Bill to Us

AllOne Health remains concerned about your safety and the safety of others. Therefore, we encourage you to call for a ride in the event that you feel unable to drive due to impairment by a substance or extreme emotional condition. Such circumstances may include over consumption of alcohol, drowsiness due to medication, or if you are extremely upset/troubled over a situation (i.e. you receive bad news at work, you are laid off or let go, learn of a death in the family, finalize a divorce, etc.)

As part of your EAP program, AllOne Health reimburses you and your dependents for cab, Uber and Lyft fares up to \$45.00 (excludes tip) in the United States, once per year, one trip per participant (18+ years of age). The process is simple, and like all other EAP services, confidential. Your receipt may be submitted up to 60 days from date of service. Simply email service-do@allonehealth.com to request your reimbursement. It may take up to 45 days for reimbursement.
